PRINCIPAL'S MESSAGE

Nowadays children are in a highly competitive world. In order to distinguish them from others, they are moving in different directions to attain success in their life and have to overcome lot of obstacles in this highly distracting vicinity.

'Success is largely a product of sustained hard work and goal oriented approach'

A young man asked Socrates the secret of success. Socrates told the young man to meet him near the river the next morning. They met. Socrates asked the young man to walk with him towards the river. When the water rose up to their neck, Socrates looked at the young man in surprise and ducked him under the river water. The boy struggled to get out but Socrates was strong and kept him there until the boy started turning blue.

Socrates pulled his head out of the water and the first thing the young man did was to gasp and take a deep breath of air. Socrates asked, "What did you want the most when you were inside the water?". The boy replied, "Air". Socrates said, "That is the secret of success". When you want success as badly as you wanted the air, then you will get it. There is no other secret.

The motivation to succeed comes from the burning desire to achieve a purpose. Napoleon Hill quoted "Whenever the mind of man can conceive and believe, the mind can achieve". A burning desire within us is the starting point of all accomplishment.

As you read in this story, the early attempts towards the goal of success are the hardest. The more our efforts, the easier it becomes to get success. Finally it becomes our habit. Then Success follows Success.

Nothing is impossible for a man who has a purpose and the perseverance to persist with it.

Determination and concentration can enable a man to attain success in any field of life. So, success is not a matter of luck. It depends on firm determination and full preparation.

Dear Children, if you work with self confidence, courage and strong willpower then *Success is yours*.

An attitude of positive expectation is the mark of Superior Personality

The only true wisdom is, knowing that you know nothing.

Plastic - A Boon or Bane

If we decide to give a name to the present age, in particular last 20 years, we would surely call it as the plastic age. The invention of plastic hailed man's brilliance which proved a boon. It was light in weight and easy to mould. Within a very short time it replaced metal in daily-use items like buckets, pipes, ropes, some items for furniture and numerous other items. The markets were flooded with colourful plastic goods that were cheap and easy to maintain. Being cheap, people began to look it as a disposable commodity and a new term 'use and throw' became a part of life.

Unfortunately, plastic is non-biodegradable – in other words it cannot be destroyed by the action of bacteria or other living organisms. Once made, its form cannot be changed causing pollution. If we look around us, we can see the amount of plastic that is senselessly used by most of us. Plastic when destroyed gives off obnoxious fumes and toxins that are highly carcinogenic. Our rivers are polluted with floating plastics. City drains get clogged and soil loses its fertility. We can easily turn to natural products like jute, cotton and other eco-friendly products. It is only with a consorted effort from each of us that we can prevent plastic from choking mother earth.

கவிதைத் தொகுப்பு

ஐம்பூதங்களுக்குள் பெண்மை

- ❖ புவிவந்திடும் குழந்தையருக்கு, தன்மடி தந்திடுவாள் நிலமென்னும் செவிலித்தாய்.
- ❖ மழையாய், நதியாய், அருவியாய் மாறி அக்குழந்தையருக்குத் தாலாட்டு இசைப்பாள்.
- ❖ கனலென மாறி, சிலகணம் கண்டிப்புப் பொறிகளைத் தெறிப்பாள்.
- ❖ அக்குழந்தையரைக் கெஞ்சியும், கொஞ்சியும் தென்றலெனத் தழுவாள்.
- ❖ 'ஆகாயம்' என்னும் பரந்த அன்புலகிற்கு அன்றாடம் உலா அழைத்துப் போவாள்.
- ❖ ஐம்பூதங்களுக்குள் பெண்மை அடக்கம் என்னும் முழக்கமே, மளிர்தினநாளின் விளக்கம்.
- ❖ பெண்மையைப் போற்றுவோம்! இப்பூலகைப் புத்தலகாய் மாற்றுவோம்!

வெற்றியின் கவிதைகள்

கஷ்டப்படுகின்றவனிடம் சிரிப்பு இருக்காது சிரிக்கின்றவனிடம் கஷ்டம் இருக்காது கஷ்டத்தில் சிரிக்கின்றவனிடம் தோல்வி இருக்காது.

நம் இரு கண்களால் உலகினைக் காணலாம். நாம் வெற்றி பெற்றால் உலகின் கண்களே நம்மைக்காணலாம்.
